

## Objectives

The objectives of the agreement between red.es and the UPM can be summarised in the following action lines:

1. To carry out UPM activities:
  - Technical advice to red.es about Telecommunications and Information Society.
  - Coordination of and technical support to GAPTEL (Telecommunications Sector Analysis and Forecasting Group).
  - Grant Program for Dissertations that are related to red.es' fields of work.
  - Organisation of two annual conference series on Telecommunications and Information Society.
2. To collaborate in ETSIT-UPM training programs
3. To participate in R&D and training activities through projects.
4. To establish a grant program aimed at funding education of students at the UPM and helping their entrance in the professional world.
